

## JJK REBOOT 7— LOCATIONS & ECHO ZONES\*\*

---

### ### Tenrin Hollow (Resonant Sanctuary)

**\*\*Type:\*\*** Hidden Ruins | Signal Core Site  
**\*\*Status:\*\*** Reclaimed by Nova during initial escape

A forgotten underground resonance chamber, once used to house Star Plasma Vessels during transfer rituals. Tenrin Hollow's layered memory lattice enabled Nova's first sync surge, activating the buried fragment that unlocked her Kernel Core.

**\*\*Key Traits:\*\***

- \* Echo Loop hotspot; memory fragments drift freely
- \* Spatial distortion affects Domain clarity
- \* Inactive Shrine Gate embedded with ancestral seals

---

### ### Shadow Node Δ (Safehouse Relay)

**\*\*Type:\*\*** Mobile Broadcast Relay | Rebel HQ Fragment  
**\*\*Status:\*\*** Active, frequently relocated

The current home node of CurseTV operations. Shielded through recursive broadcasting and cloaked movement algorithms. Often disguised as old service tunnels, freight storage, or abandoned karaoke bars.

**\*\*Features:\*\***

- \* Kernel calibration station (used by Nova + Shoko)
- \* EchoBot's projection dome for mood tests
- \* Signal spin anchoring point for field reinforcements

---

### ### Echo Zones 1–11 (Mapped & Traced)

**\*\*Type:\*\*** Sectorized Urban Zones | Surveillance-Saturated Grid  
**\*\*Status:\*\*** Variable risk levels

Originally created by the Association for Echo Trace detection and population scanning, each Echo Zone is a cursed network with environmental instability. CurseTV broadcasts hop between Zones to avoid signal locks.

**\*\*Notable Zones:\*\***

- \* **\*\*Zone 3\*\***: Safe Fan Uplink | EchoWeaver meetup hub
- \* **\*\*Zone 5\*\***: Blackout Event Site (Nova's first Echo Surge)
- \* **\*\*Zone 8\*\***: Ghost Node Crossroads — flooded with phantom resonance
- \* **\*\*Zone 11\*\***: Forbidden (believed to house an NA Cryo Node)

---

**### 📡 Broadcast Studio Shells**

**\*\*Type:\*\*** Repurposed Set Spaces | Emotional Amplifiers

**\*\*Status:\*\*** Operated in shifts by CurseTV crew

Designed for public-facing broadcasts, these mobile "studios" are laced with cursed-echo responsive walls. Lighting, sound, and emotion-reactive glass create feedback loops that increase resonance output.

**\*\*Design Variants:\*\***

- \* "The Glitch Booth" — for high-chaos drops (EchoBot zone)
- \* "Doctrine Stage" — for Geto's belief broadcasts
- \* "Static Bloom Room" — Nova's emotional projection set

---

**### 🏢 Association Blacksites**

**\*\*Type:\*\*** Hidden Labs | Observer Development & Interrogation Cells

**\*\*Status:\*\*** Unknown activity, still monitored

Used for cursed-tech experiments and spirit tethering. Some serve as containment vaults for failed relics and unstable cursed objects. Rumors suggest one houses a living but silenced Observer Unit (NA-07).

**\*\*Access Requirements:\*\***

- \* Triple-seal cursed rings
- \* Ghostcode ID imprint

\* Cloak delay of emotional signatures

---

### 🏠 Old Jujutsu High Ruins

**\*\*Type:\*\*** Historical Landmark | Trauma-Rich Territory

**\*\*Status:\*\*** Cursed echo hotspot

Once a major school for sorcerers, now overgrown and warped by residual Domain scars. Rumors persist of bound souls still teaching within its crumbling walls. A key site for memory-triggered training and emotional resonance field studies.

**\*\*Danger Rating:\*\*** High — Amplifies unprocessed grief

**\*\*Nova's Access Note:\*\*** Only enter with a tethered ally or synced emotion token

---

More locations will be added as we map fan zones, rescue points, and cursed relic emergence sites.
